Pricing Terms and Conditions

Premium Accounts
Cygnet Cloud offers you the option of increasing your account storage space beyond 2 GB for a fee. By doing so, your account will be converted to a Premium Account and will not be subject to some of the restrictions placed on Free Accounts as described below.

Cygnet Cloud accepts credit cards, iDeal and SEPA bank transfers and will automatically charge monthly or yearly, depending upon which Premium Account you select. If any fee is not paid in a timely manner, or Cygnet Cloud is unable to process your transaction using the credit card information provided, Cygnet Cloud reserves the right to revoke access to your Cygnet Cloud account and Files. If you do not bring your Cygnet Cloud balance current within five (5) days after Cygnet Cloud provides you with notification that your account is in arrears, Cygnet Cloud reserves the right to use our discretion to delete some or all of your files, so as to reduce your storage space to below 2 GB, and to convert your Cygnet Cloud Premium Account to a Free Account (which is subject to the restrictions described below).
